How to fill the SeasonWatch Observation Sheet:

1. SELECT a healthy, mature tree from the SeasonWatch tree list.

Fill in the information on the first page (Species name, tree nickname etc.)

2. Take 5 minutes to **MONITOR** your selected tree every week and record your observation.

If date is 9/1/2019, write it in as shown in the 'Example'

Look at the fresh and mature leaves on the tree. Fill the box as shown in the 'Example'.

- None: No fresh/mature/dying leaves
- Few: Less than about 1/3rd branches with at least one fresh/mature/dying leaf
- *Many:* More than about 1/3rd branches with at least one fresh/mature/dying leaf
- *Don't know:* Only if you are unable to observe clearly

Similarly, look at flower buds and open flowers, unripe, ripe or open fruits/pods on the tree.

3. Regularly **UPLOAD** the recorded observations at http://www.seasonwatch.in.
